Federal Eligibility Criteria

The following questions pertain to federal regulations regarding brownfields and will help USEPA determine project eligibility.

Loans or subgrants cannot be provided to entities who caused or contributed to the property's contamination. Specifically excluded are individuals or entities responsible for, or individuals or entities who have common ownership or control with entities responsible for, any existing environmental contamination at the site or any individuals or entities that have indemnified a responsible party or a party who has common ownership or control with a responsible party.

III. SITE ELIGIBILITY

Is the property listed or proposed to be listed on the National Priority List?*	YES	NO
Is the property subject to unilateral administrative orders, courts, administrative orders on consent, or judicial consent decrees issued to or entered into parties under CERCLA?*	YES	NO
Is the property subject to the jurisdiction, custody, or control of the US Government?	YES	NO
Identify known ongoing or anticipated environmental enforcement actions related to the property:		
Identify any property uses since acquisition:		

IV. APPLICANT ELIGIBILITY

Did all disposal of contamination at the site occur before you acquired the property?	YES	NO
Are you an individual or entity who has common ownership or control within entities responsible for any existing contamination at the site?	YES	NO
Have you been named as a responsible party for the contamination of the property?	YES	NO
Have you been indemnified as a responsible party or a party who has common ownership or control with a responsible party?	YES	NO

*The NPL is a list of hazardous waste sites identified by EPA as warranting further investigation into the extent of the risk they pose and whether cleanup of the site under EPA's Superfund Remedial program is warranted. NPL listing does not promise remedial action, only detailed investigation. (In most cases, the answer to this question is "no." If you were on the list, you would certainly know).

**The Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), commonly known as Superfund, was enacted by Congress on December 11, 1980. (Again, in most cases, you would answer "no." If your property was subject to CERCLA consent order, lien, or emergency action, you would know about it.)

V. PROPERTY OBLIGATIONS

Describe the reasonable steps taken to:

Stop any continuing releases of contamination:	
Prevent any threatened future release of contamination:	
Prevent or limit exposure to any previously released contamination:	

Confirm your commitment to:

- Comply with all land-use regulations and not impede the effectiveness or integrity of any institutional controls
- Comply with all information requests and administrative subpoenas that have or may be issued in connection with the property
